Form
MR-400**

**S.C. DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
BUREAU OF LAND AND WASTE MANAGEMENT
DIVISION OF MINING AND SOLID WASTE PERMITTING
2600 Bull Street, Columbia, SC 29201
Telephone Number: (803) 896-4261 Fax Number: (803) 896-4001**

**APPLICATION FOR A MINE OPERATING PERMIT
DHEC FORM MR-400 DATE VERSION ADOPTED 7/1/94**

**1-002086
F# 11145**

"The South Carolina Mining Act," Sections 48-20-10 through 48-20-310, Code of Laws of South Carolina, 1976, as amended provides in part: "No operator may engage in mining without having first obtained from the Department an operating permit which covers the affected land and which has not been terminated, been revoked, suspended for the period in question, or otherwise become invalidated." (Section 48-20-60)

RECEIVED

I. APPLICANT INFORMATION

1. Name of Company: Mark Edwins

MAY 29 2013

Check form of business entity: ☐ Corporation

☐ Partnership

☐ Limited Partnership

☒ Sole Proprietorship

**DIVISION OF MINING &
SOLID WASTE MANAGEMENT
BL&WM**

2. Name of Proposed Mine: Edwins Mine

County: Berkeley

3. Home Office Address: 4169 State Road

(843) 688-5461

(Street and P.O. Box)

(Telephone No.)

Ridgeville

SC

(City)

(State)

(Zip Code)

(Fax. No.)

4. Local Office Address: Same as above

(Street and P.O. Box)

(Telephone No.)

(City)

(State)

(Zip Code)

(Fax. No.)

5. Designate to which office Official Mail is to be sent (check one):

☒ Home Office

☐ Local Office

6. Name of company personnel and their title to be the contact for official business and correspondence: _____

Mark Edwins - Owner

7. Location of Mine: US Hwy 176 4169 State Road

Holly Hill

(State or County Hwy No.)

(Nearest Town or City)

8. Locate accurately on a county map, USGS 7.5' Topographic Map, or draw a detailed map to scale of: (1) how to get to your local office and (2) how to get to the mine (attach to this application). Map to mine - Enclosed at local office 4169 State Road

9. If land is leased, complete the following: _____

A. Name of landowner: _____

Landowner's Address: _____

(Street and PO Box)

(City)

(State)

(Zip Code)

(Telephone Number)

B. Date lease became effective: _____

Date of lease termination: _____

Name of lessee: _____

II. GENERAL CHARACTERISTICS OF MINE:

1. Material(s) to be mined: Sand; Clay

2. Mining Method: Trackhoe

A. List equipment to be used for mining and provide a brief description as to how the mine will be operated.

Trackhoe and Front End Loader

B. Will there be a process plant located at the mine site within the boundary of the permitted area?

☐ Yes ☒ No If no, please provide a brief description of the plant equipment and function of the plant.

3. Do you anticipate blasting as part of the mining operation? ☐ Yes ☒ No If yes, provide the distance to the nearest inhabited structure not owned or leased by the applicant. Also, provide as an attachment to this application the names and addresses of all the owners of all structures within one-half mile from the nearest point of blasting during the life of the proposed mine. How will flyrock be prevented from being projected from the permitted area?

4. Has this site been mined in the past? If so, please indicate the present condition of the land.

5 acre permit issued, Permit # GP1-001917. Approximately 1.5 acres is being mined presently.

5. What is the expected maximum depth of this mine? Provide any additional information about the final depth of the mine that would be useful to the Department. (Example: Final depth of pit will be level to adjacent road, elevation above Mean Sea Level (MSL)).

25'

III. DETERMINATION OF PERMITTED ACREAGE, AFFECTED ACREAGE AND RECLAMATION BOND

1. Total acres for which permit is being requested:

94.68 Permitted acres owned by the operator

 Permitted acres leased by the operator

Note: Permitted acreage should include the following: 1) acres of land to be affected (excavation, processing plant, stockpiles, etc.); 2) future area(s) to be mined and 3) land to be used for buffer zones around the affected land. The permitted area should be the property described in the LAND ENTRY AGREEMENT(S) (FORMS MR-600 OR MR-700).

2. Total affected acreage:

Acres

A) Area used for sediment control ponds 0.5

B) Area used for stockpiles of unprocessed minerals 0

C) Area used for spoil (overburden) banks, topsoil and disposal refuse (exclusive of tailings impoundments) 0.5

D) Areas used for on-site processing facilities and stockpiles of processed minerals 0

E) Areas used for tailings pond (waste material from mineral processing) 0

F) Area for access or haul roads 2

G) Area for excavation during the period of this permit

OR

If mining and reclamation are to be done in segments, state the size of each segment (acres) 10.0. Multiply the size of the segments by 3 and enter the resulting number.

30

H) TOTAL OF 2A THROUGH 2G

3. Check acreage to be bonded: total affected acreage calculated from Section 2.

☐ 0.00 - 9.99 acres (bond amount - \$10,000)

☐ 10.00 - 14.99 acres (bond amount - \$15,000)

☐ 15.00 - 24.99 acres (bond amount - \$25,000)

☒ 25.00 + ^{69.68} acres (bond amount - \$25,000 or greater)

Applicant may submit a reclamation cost estimate for mines that will affect greater than 25 acres. Estimate should be based upon requirements in Regulation 89-200 B.

4. Will this operation be covered by a blanket bond? ☐ Yes ☒ No If yes, please list your company's other permitted mining operations in South Carolina giving mine names, permit numbers and state the present reclamation bond amount on file with this Department.

5. Number of years for which this permit is requested. The requested number of years the permit is requested should coincide with the Schedule of Reclamation as proposed by the applicant in the RECLAMATION PLAN, (Form MR-500), 25 years This would depend on availability of sales and economy.

IV. PROTECTION OF NATURAL RESOURCES*

1. Will there be a waste water treatment system at your mine site? ☐ Yes ☒ No
2. Will there be a point source discharge from your plant or mine requiring an NPDES Permit? ☒ Yes ☐ No
If yes, provide information as to how stormwater and groundwater will be managed?
Do not expect to pump ground water, but if it becomes necessary, water will be pumped into a sediment basin and then discharged.
3. Will there be air contaminant emissions from your plant or mine requiring an Air Quality Permit? ☐ Yes ☒ No
4. Do you anticipate pumping of groundwater? ☒ Yes ☐ No If yes, describe.
Currently no pumping required, however, if necessary in the future, a sediment basin will be constructed
5. Will jurisdictional wetlands be affected, filled or altered in any fashion that will require a Section 404 Dredge and Fill Permit? ☐ Yes ☒ No
6. Are there any known cultural or historic sites located within the proposed area to be permitted? ☐ Yes ☒ No
7. Will any part of the permitted area be used as a solid waste describe how waste, trash, scrap metal material, garbage will be handled. ☐ Yes ☒ No

*NOTE: For questions 1-7 that need additional space for explanations, please provide additional information on an attached sheet to this application.

8. Describe the wildlife or freshwater, estuarine or marine fisheries in the area of the mining operation. Also provide information about any ponds and/or streams that may be located in the proposed permitted area.

No wetlands involved. Adjoining fields planted to row crops. The wildlife are typical of indigenous species inhabiting crop and woodlands.

9. State the land cover and land uses on the permitted land area and contiguous tracts of land to the permitted land area. Permitted land cover is native vegetation and contiguous land would be row crops and woodland.

10. Describe measures to be taken to insure against (1) substantial deposits of sediment in neighboring streams, rivers lakes or ponds; (2) landslides; (3) acid water formation and discharge. Attach any supporting documents (engineering designs, calculations, sediment & erosion control plan, setbacks, geotechnical information, acid prediction test etc.) to this application.

1. No pumping anticipated at this time. If it would be necessary, sediment basins would be constructed and water would pass thru before exiting into wetlands.
2. Side Slope to be a minimum of 3:1.
3. Not anticipating, however, any sediment or erosion control will be handled by berms using existing topsoil and sediment basins to be constructed with discharge to existing gravity pipe.

V. SAFETY

1. Describe methods to be used during the time the mine operating permit is active to prevent physical hazards to persons and to any neighboring dwelling, house, school, church, hospital, commercial or industrial building or public road. If applicable, provide the zoning designation for the property to permitted.

Gates to be installed and locked when not actively mining. Signs to be posted on roads warning of truck traffic, etc. Best Management Practices to be implemented. Dust to be controlled by watering and sand in roads will be removed as necessary. Inspections will be done daily and problems, if any, will be addressed as they might occur.

2. Describe methods to be used to prevent an adverse effect on the purposes of a publicly-owned park, publicly-owned forest, or publicly-owned recreation area. If any of these facilities are within one (1) mile of the proposed affected property, please locate on mine location map and the submitted U.S.G.S topographic map for this application.

Not Applicable

3. Describe measures to be taken for screening the operation from view from public highways, public parks or residential areas. Natural screening by vegetation, woods, etc. Mine site is not visible from public highway.

VI. MINE MAP

1. Provide the U.S.G.S. topographic map(s) that contains the proposed mine site. The proposed permitted area should be outlined on this submitted topographic map.
2. Attach two (2) copies of a map of the site (referred to as the MINE MAP) that shows the following:
 - A. Outline of the area to be affected by mining during the number of years for which the permit is requested. See Section III, Question 1 on page 3 of this application form.
 - B. Outline of the permitted area that shows the buffers zones, future mine areas and areas to be affected by mining.
 - C. Outline of the planned pits or excavations for which your company has detailed plans. If your company has reason to believe that additional land may be mined in the future within the permitted area but is not feasible to show as planned excavations; indicate these areas as FUTURE RESERVES on this site map.
 - D. Outline of areas for the storage of naturally occurring soil that will be suitable for the establishment of vegetation in final reclamation.
 - E. Outline of planned areas for disposal of refuse, exclusive of tailings ponds.
 - F. Outline of planned spoil, overburden or other similar waste material disposal areas.
 - G. Locations of planned access and haul roads on the area to be affected.

H. Outline of planned tailings ponds.

I. Locations of sediment control pond(s) and other sediment control structures within the affected area. Outline of areas on which temporary or permanent vegetation will be established to control erosion during the mine operation.

J. Location and name (if appropriate) of streams, lakes, wetlands and existing drainage ditches within the area to be permitted. Use arrows to indicate direction of water flow in such streams and drainage ditches.

K. Boundary for the 100 year floodplain, where appropriate.

L. Outline of areas for stockpiles of unprocessed minerals.

M. Outline of area of previously mined land that will not be affected.

N. Outline of the area to be occupied by processing facilities including stockpiles of processed minerals if such facilities are to be an integral on-site part of the mining operation.

O. Show location of the two permanent survey control points.

P. A legend showing the name of applicant, name of the proposed mine, north arrow, county, scale, date of preparation and name and title of person who prepared the site map.

THE REQUIRED SITE MAP SHALL HAVE A NEAT, LEGIBLE APPEARANCE AND BE OF SUFFICIENT SCALE TO CLEARLY SHOW THE REQUIRED INFORMATION LISTED ABOVE. THE BASE FOR THE MAP SHALL BE EITHER A SPECIALLY PREPARED LINE DRAWING, AERIAL PHOTOGRAPH, ENLARGED USGS TOPOGRAPHIC MAP OR A RECENTLY PREPARED PLAT.

3. Provide the most recent county tax map that shows all contiguous land owners of the permitted mine site. Provide name and addresses of all land owners contiguous to the proposed permitted mine site.

4. Provide letter from an attorney attesting to (1) the ownership if the property, (2) ownership of the mineral rights and (3) that the applicant has the legal right to mine the proposed mineral resource on the property as described in this application.

We hereby certify that all information and details contained hereinabove, within any supporting documents and on the map are true and correct to the best of our knowledge. We fully understand that any willful misrepresentation of facts will be cause for permit revocation.

The applicant acknowledges that Section 48-20-130, Code of Laws of South Carolina, provides in part:

"Upon receipt of the operator's annual report or report of completion of reclamation and at any other reasonable time the department may elect, the department shall inspect the permit area to determine if the operator has complied with the reclamation plan, the requirements of this chapter, regulations promulgated by its authority, and the terms and conditions of this permit. Accredited representatives of the department at all reasonable times may enter upon the land subject to the certificate of exploration or operating permit for the purpose of making the inspection."
